

Should your child stay home from school?

Stay home if:

- Your child has a fever of 100.4 or greater
- Vomiting more than twice in the last 24 hours
- Diarrhea in the last 24 hours not related to any certain trigger
- Eye drainage that is yellow/green with the eye being pink or irritated
- Live head lice
- Rash with discomfort/not feeling well/drainage that cannot be covered
- If symptoms continue or worsen (may want to call physician)

Use caution:

- A fever of 100.4 or less
- Unexplained rash with no other symptoms
- Uncontrolled cough/ mild asthma symptoms
- Sore throat with low grade fever

(You may want to speak to child's physician if symptoms continue longer than 2 days.)

Should be at school:

- No fever (without the use of fever reducing medication)
- They are active and playful
- If your child has a clear runny nose, slight cough, or if they are just tired, they are okay to be at school

Please be sure that we have updated contact information on your child in case we need to contact you during the school day!

Please notify school of your child's absence and send a note once child returns.
